

RESUME - ARXCHO [Stex advanced design Bureau]

The Type of Work we are / were Allocated [Sourav & Partner] [Lazarrs Zarrs/Earth Duty]

- [1. Stop the Earth Quakes from Re happening], - Soaking up Earth Quake energies through Body Upheavels
- [2. Preventing Astroid bombardments] - Balancing out High Entropy with Good Karma
- [3. Preventing the Axis Control failure] - Physcial Balance and control of the EARTH AXIAL PLANE
- [4. Preventing Machine Incidents and Accidents] - due to High Risk/Entropy. - E.g. Planes Crashing, Ships sinking.
- [5. Preventing Incessant Rain from drowning & Destroying the system

[WATCH LINKINPARK VIDEO - A LIGHT THAT NEVER COMES \[OFFICIAL VIDEO \]](#)

<https://www.youtube.com/watch?v=ToHo29kD9Go>

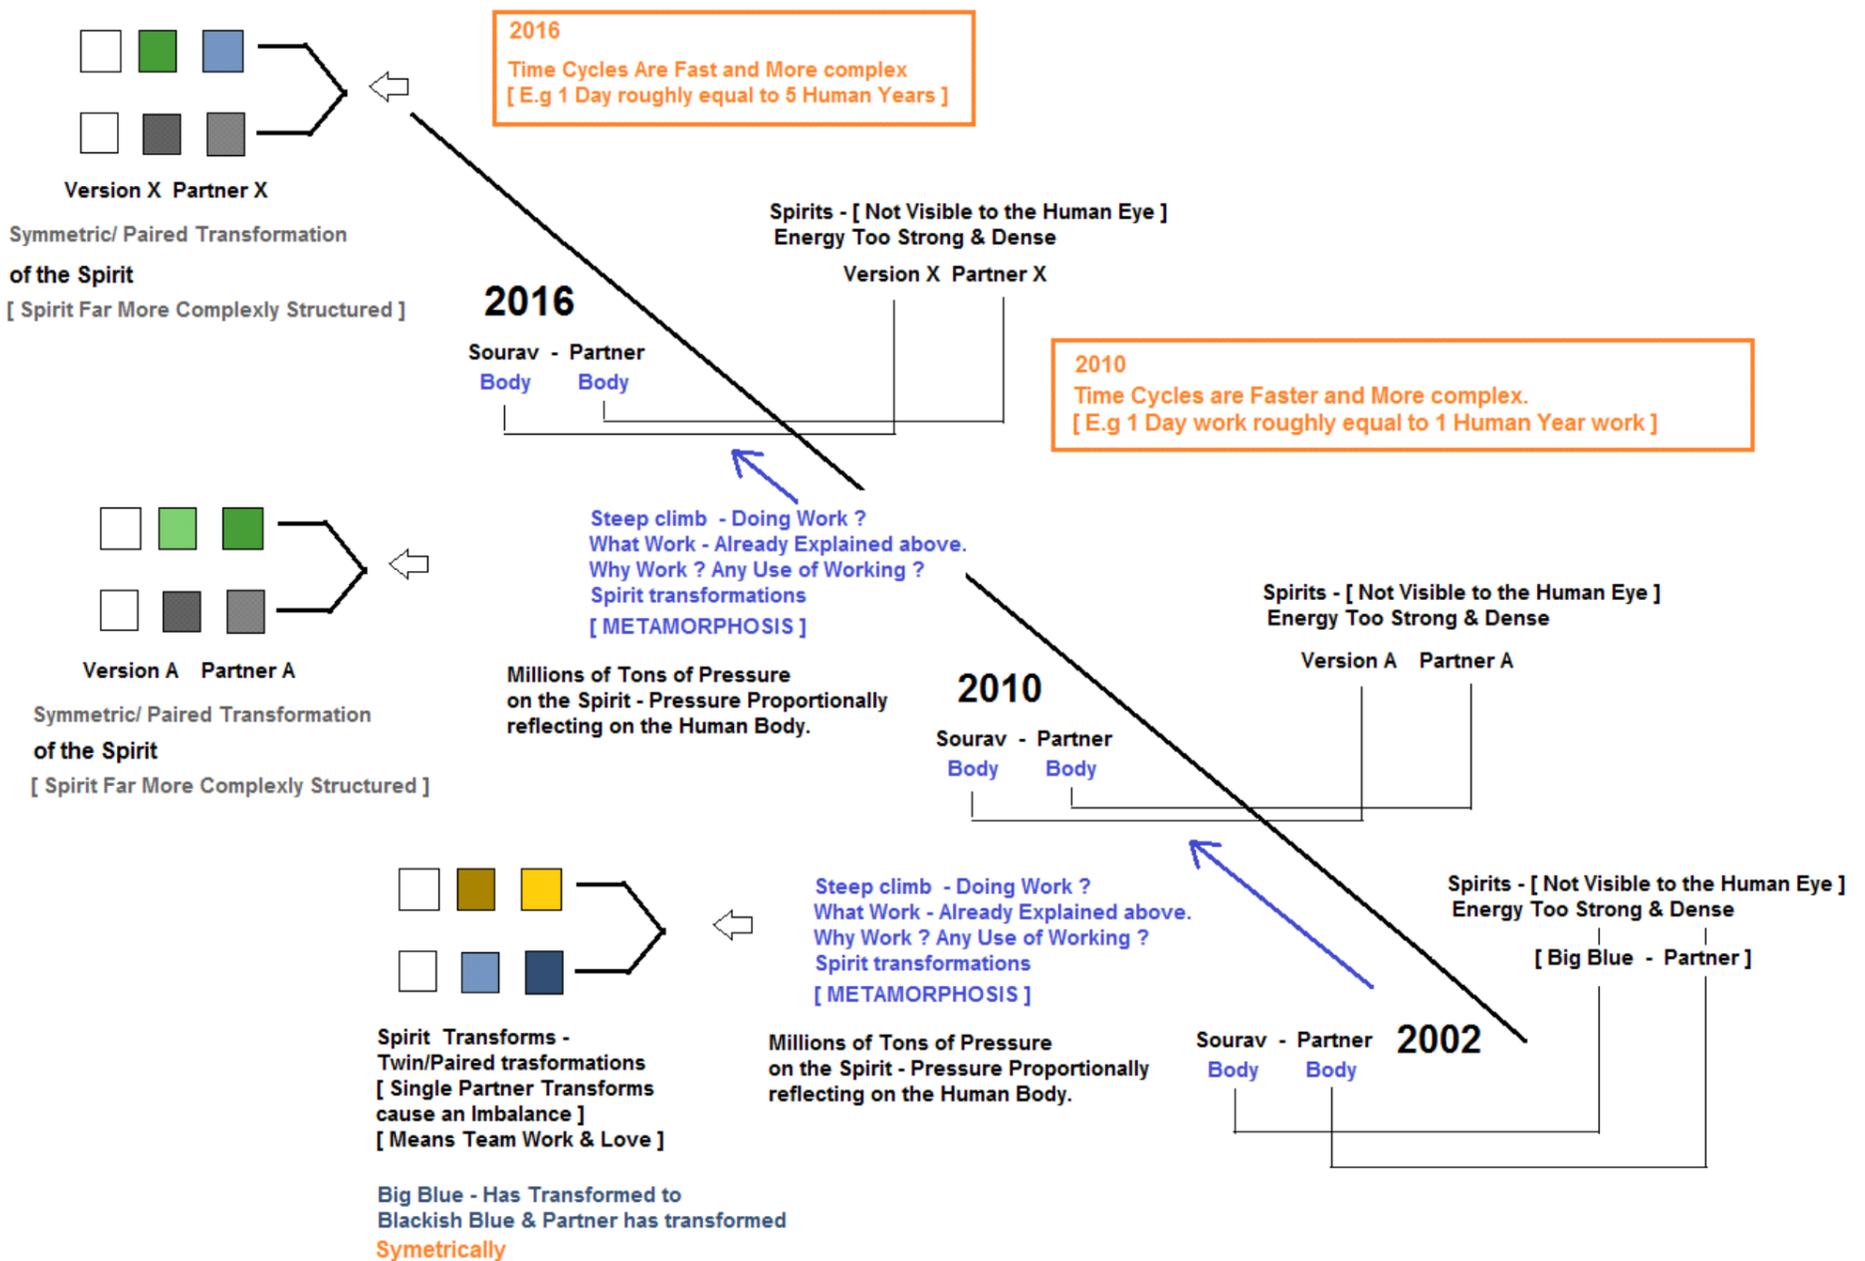

These Concepts have been explained through Movies/Filmography References :
 [Earth quakes - Film : 2012]
 [Asteroids - Film Armageddon]
 [Machine Incidents & Accidents : Film: Knowing]
 [Earth Mantle Core Failure : Film: The Core]
 [Rain - Agent Smith vs NEO Rain Scenes - in the Film Matrix]

Real Time [Earth & Industry related Work to climb Time Cycles [Climb Time].

[As of Today [8 May 2016] - Industrial Project / Arxcho Works - Score/Count = 110]
 [Classified and Described in detail at the WWW.Stexinternational.com] Website.

How We do Work ? [A Steep Climb from 2002 to 2016 +]

Note: The Same Human Body Sourav and Partner body - carrying or connected to 3 Different Versions of Sprits across the Time SPAN [2002 to 2016 +]. The Human Body senses pressure & Rigour, and is succceptible to Damage [Under HIGH pressure and Load]. The Sourav Body and Partner Body are not exactly a Couple, Not Exactly Husband Wife. The partner Emotions are to be Sustained /Simulated even without a Real life Contact or Bonding from [2002 to 2016 +].

Why did you Take up the Duty - Commanding OFFICER Duties. We Ran our Work Duties in Parallel. [Duties + Transformations sequences]

After 14+ Years of HEAVY DUTY Sustained Loads - Still managing to look OK / INTACT from many Angles.

[My Photographs]

What I am about to tell you is not to showoff or Gain attention. [It is a Technique to create a Character/Picture]

Try and associate these words with The Guy above

- 1] Sourav (He) - Arxcho ?
- 2] He - Lover ?
- 3] He - Husband ?
- 4] He - Father ?
- 5] He - Military commander ?
- 6] He - Technology Architect ?
- 7] He - Business Man/Tycoon ?
- 8] He - Entrepreneur ?
- 9] He - Top Ranked Student ?
- 10] He - Serious/Very Serious /Extremely Serious
- 11] He - Advanced Systems / Engineer - Arxcho ?
- 12] He - Alien ?
- 13] He - A Transformer [Prime] ?
- 14] HE - Powerful/Macho ? Nah not much..
- 15] He - Left Handed / Left Brained [Mind] - Inclined to Left Thinking - Practising [Left]

If you selected 1,10,11, 13,15 - You are close to Understanding him/his character/Personality.

Distinctive styles/Work Attributes of - [Big Blue/ Version A/ Version X] - shown Below

1] Big Blue - Work Reflections / Attitudes

The graphic features a large green circular shape on the left with the text 'T&C VECTORS' written vertically. A grey horizontal bar with 'ENTERPRISE ENGINEERING' is overlaid on the circle. To the right, the text 'SMARTER < Products , Processes , People >' is displayed. Below this, the phrase 'REDEFINING - DEFINITION .' is followed by 'FOR A SYSTEMATIC EXPERIENCE' and '[System + Automatic]'. A callout box on the right contains the text 'T - Enterprise', 'System- Centric Free Scaling | Smart Algorithms', and 'Enterprise < intellisense >'. A copyright notice 'Copyright 2008 . All Rights Reserved.' is at the bottom left.

This graphic is similar to the one above but with a 3D effect. The green circular shape is rendered with perspective. The text 'T&C VECTORS' is on the left. The grey bar contains 'ENTERPRISE ENGINEERING'. The text 'SMARTER [PRODUCTS , PROCESSES , PEOPLE]' is on the left side. The central text reads 'REDEFINING - DEFINITION .' followed by 'FOR A SYSTEMATIC EXPERIENCE' and '[SYSTEM + AUTOMATIC]'. The callout box on the right contains 'T - Enterprise', 'System- Centric Free Scaling | Smart Algorithms', and 'Enterprise < intellisense >'. A copyright notice 'Copyright 2008 . All Rights Reserved.' is at the bottom left.

3] Version X - Work Reflections / Attitudes

STEX **REALISTIX** - Attitudes in Engineering, Architecture, Design & Strategy.
 Scalable Techniques for Engineered Applications using Advanced Design

STEX MACHINE - CODES REFERENCE

Automatic, Advanced, Architecture, Aesthetics - A	H - High Definition, High Performance, H2O, Hyper
Focus, Flux, Free scale, Frequency - F	D - Design, Data, Distributed, Digital, Density, Duplex, Dynamic
Machine, [Emotion], Motion, M2M - M	R - Responsible, Responsive, Robotic, Revolution, Redundant
Secure, Service, Spark, Scale, Systematic, Standard, Smooth - S	C - Constant, Cycles, Change, Constructs, Computing, Code
Texture, Transition, Technique, Traction, Transaction, Think - T	O - Optimization, Order, Opacity, Open Systems
[Ampincation] Programmable Work, Programmable Knowledge - K	U - Ultra scale, Ultimate, Uninterrupted
Intelligent, Intuitive, Integrated - I	Z - The Last in the Series
Ergo, Energy, Enterprise, Evolution, Execution - E	P - Play, Power, Performance, Parallel, Projections, Precision
Joint - J	w - Work, Weaving [Strings]
Extreme - E	Q - Quantum [Jump], Quartz, Quick
Light Weight, Laser sharp series, Longform - L	V - Variable, Visual
Ground - Earthing - G	Y - Rare

STEX is the reflection of the mind of an ' Arxcho // '.

Arxchos by Definition are - a Special Type of Industrial Architects / Engineering Architects who work across Engineering domains as well as Enterprise disciplines. By Attitude they are mostly INTERNATIONAL.

Our Experience has taught us that - Archo Works are not easily accepted by industry / Enterprise, here on earth - Mostly because of the Dimension Factor associated with their work. [Arxchos - Work is usually classified as Dimension level 3+ to 4, 5, and Above] .

Our Proposal : You may consider STEX as your Industrial Design and Industrial Logic Partner, A type of Extended Laboratory. Feel free for an Inexpensive Consultation.
