Dear Sourav,

Your new web hosting account is activated and ready to use.
Please read over this entire email as it contains answers to many questions regarding use of your new account. You may also wish to see our Getting Started section at http://kb.SeekDotNet.com/

Your Referral URL is http://www.seekdotnet.com/default.aspx?refid=sourav_das

This URL is for you to refer other members and get paid when they sign up.
You will get paid up to $50 for every sales that generated from the link.
Feel free to post the link into your website, forums, emails as you might never know that it can generate an income for you.

Please keep this email on secure place, as it contain important information for your website.

Here is your account information:
Login: sourav_das
Password: edirect2
Client ID: C5042
Account Physical Path: C:\Clients\C5042
IPAddress : 75.125.199.67
Domain: enterprisestart.com

(*Please note that your password is cAsE SenSiTive. You will use your Username and Password to enter your Control Panel and to FTP files to your site. So please keep them in a safe spot).

*** CONTROL PANEL ***
To log in to your control panel, go to http://copanel.SeekDotNet.com or when your domain is transferred, you may use: http://copanel.enterprisestart.com
Use the log in information above.

Before your domain is fully transferred to our DNS Server, you can use temporary URL for testing and uploading your website.
Your Temporary URL Address is : http://enterprisestart.com.122.SeekDotNet.com

Note : If you transfer your DomainName to us, it will take between 24-72 hours for the change to take effect.

Please contact us at http://helpdesk.seekdotnet.com if you find difficulty in logging into your control panel.

To FTP into your account please use the following details:
HostName : ftp://enterprisestart.com or ftp://enterprisestart.com.122.SeekDotNet.com if your domain is not yet transferred.

Username: sourav_das
Pass: edirect2

*** WEB BASED E-MAIL***
To administrate your mailboxes please visit
http://mail.enterprisestart.com if your Domain is fully transferred

or
for Temporary Access while your domain is not transferred
http://216.40.239.90

Login: postmaster@enterprisestart.com and Password:edirect2.

Tip : Login as postmaster@yourdomainname.com when you want to create user or administrate your mailboxes, else just login as user@yourdomainname.com when you want to check email via web.

To setup your Email Accounts in Outlook or Outlook Express please use the following details:

Email Address: sourav_das@enterprisestart.com
POP3: mail.enterprisestart.com
SMTP: mail.enterprisestart.com
Account Name: sourav_das@enterprisestart.com
Password: edirect2

Important - Always use this format username@domain.com as the mailbox username for your account. When setting up Outlook or Eudora, make sure to check on (highlight) my outgoing (SMTP) server requires authentication before sending mail.

Instructions on setting up these and other mail clients is available in our knowledgebase at http://kb.SeekDotNet.com.

--Again, your e-mail will not function correctly until domain name registration or transfer is complete.--

*** NEW Domain Registration ***
If you chose to register a new domain on our sign up form or wish to register a domain with us, you dont have to worry about domain transfer. We will do that for you.

I ALREADY HAVE A DOMAIN
If you already own a domain name that hosted somewhere and would like to move to our server, Please make sure that you edit your DNS Setting in your Domain registrar.

Primary Name Server: ns1.SeekDotNet.com
IP Address : 70.87.171.178
Secondary Name Server: ns2.SeekDotNet.com
IP address: 74.52.10.202

If you need help regarding your Domain Transfer please contact us at http://helpdesk.seekdotnet.com. We would be very happy to assist you with no extra fee.

Just remember to read our Knowledge Base on kb.SeekDotNet.com if you need help regarding your hosting account.

Thank you again for choosing SeekDotNet.com, we appreciate your business.
Sincerely,
SeekDotNet.com Account Management Team.
