Dear Sir/Madam,

=====

This document contains the information you need to get your website up and running. Please save it for future reference. Thanks!

=====

WELCOME

First off, thank you for choosing to go online with AMITY Techsys for your hosting needs. We strive to ensure you are satisfied with the services you will be receiving from us.

-- DOMAIN : tcx.in

-- PACKAGE: 10MB with 200MB Bandwidth/Month on Win2K3

=====

SERVER INFORMATION

=====

-- Control Panel URL* : <http://www.tcx.in/email> (click on Manage Website/Email, after domain resolves)

-- LOGIN : tcx.in

-- PASSWORD : pass0164/domainadmin

-- Webmail Panel URL* : <http://www.tcx.in/email> (Click on Check Email, after domain resolves)

Please read on to learn how to use your hosting account.

=====

EMAIL INFORMATION

=====

You can manage your email by adding, deleting or changing them directly in your Control Panel Mail Manager.

Your Incoming and Outgoing SMTP and POP3 server are:

mail.tcx.in

Don't forget to Check "My Server Requires Authentication"

You can create email IDs from your control panel, Eg:

Email: support@tcx.in

Username: support@tcx.in

Pass: you provide them from your Control Panel

=====

FILE UPLOAD INFORMATION

=====

You should Upload the web files into the

"httpdocs" directory. CGI files have to be placed in
the "cgi-bin" directory.

-- Hostname: <ftp.tcx.in> (use <66.98.208.234> - till domain resolves)

-- LOGIN : tcx

-- PASSWORD : pass0164

IMPORTANT :

1. Please take backups of the websites and databases
regularly. Its your responsibility to take backups of the
websites and databases. We take regular backups, but we
can't guarantee for backups.

=====

If you require any additional information or we can be of any further
assistance please use www.amitytechsys.com/support or write to us at
support@amitytechsys.com

Best Regards,
