

STEX ADVANCED DESIGN BUREAU

Work Summary [2005 - 2016] | Download Work summary at

www.stexinternational.com/Images/109/stex_110.pdf

Total Projects: 110 Unique projects/Concepts

4 [Core] + 65 [Industrial logic] + 23 [Design Bureau] + 11 [Experimental Design] + 7 [Physics/Meta Physics]
19 [High Value] Projects/Solutions

Core Project

- 1.Intelligent design & Industrial logic [Book] [MEDIUM HIGH VALUE]
- 2.STEX GRID PROJECT [HIGH VALUE]
- 3.MAP GRID PROJECT [HIGH VALUE]
- 4.SOFTWARE AUTOMATION PROJECT [HIGH VALUE]

Industrial Logic

- 1. PPP theory + Intelligent Design + MATRIX Methods
- 2. Industrial Domain research
- 3. Enterprise Architecture [Engineering]
- 4. Enterprise Architecture [Software]
- 5. Enterprise Architecture : 60000 Thousand Feet View
- 6. Enterprise Architecture : 50 Feet View
- 7. Artificial Intelligence [HIGH VALUE]
- 8. Strategic Packaged Software Services [ICM COMPANY] [HIGH VALUE]
- 9. Enterprise Architecture : Product development and discovery
- 10. Enterprise Architecture : Cash flows and Money
- 11. Functional Economics
- 12. Money Markets : A complexity Analysis
- 13. How Stock market Indices work [ZERO SUM GAME]
- 14. Stock Market strategies
- 15. How Bank Interest rates could be decided Bank / Fixed deposits vs Stocks investing
- 16. Retail Solution - Walmart [Minimal Technology Spending - Swiping of Cards at each Product Cost center]
- 17. Share in a Company means a Share in Earnings too + The Stock Market K problem
- 18. The market capitalization problem
- 19. Stock market trail: who bought stocks at a high.
- 20. A classic stock market problem
- 21. Joint Venture Mathematics : INVESTMENT /PROFIT SHARE
- 22. The Fake GDP Numbers [-8 % theory]
- 23. USDollar denominated GDP: INDIA, JAPAN ?
- 24. The Forex Problem
- 25. Global imbalances
- 26. Repeat revenue problem associated with stocks [Net value additions]
- 27. The Derivatives Fix
- 28. Thick volume vs Thin volume transactions
- 29. Private valuations in Stocks
- 30. Volumetric Analysis of stocks [pyramids, sky scrapers] [HIGH VALUE]
- 31. Intelligent structured Marketing process
- 32. Options Contract to try [sales]
- 33. Machine Factorization [USING matrix methods]
- 34. Measuring electrical energy at substations [HIGH VALUE]
- 35. The Industrial Internet [HIGH VALUE]
- 36. Data Base Indexing Flaws / cheating
- 37. Group buying/Bulk Buying : Passport services [HIGH VALUE]
- 38. Education Learning & Training
- 39. Decoding the Universe
- 40. Alternative Turbine Design
- 41. Marine systems: Turbo Propulsion [HIGH VALUE]
- 42. Marine systems : Multi Propeller systems [HIGH VALUE]
- 43. Rail Systems : VRVR TECHNOLOGY
- 44. VRVR Windmill Technology
- 45. VRVR SUPER CRITICAL POWER SYSTEMS [HIGH VALUE]
- 46. Twin generator /Multi Generator Sets for Super critical power systems [Higher RPM THROUGH GEARS]
- 47. hand drill design
- 48. Helicopter design 1

49. Helicopter design 2
50. Jet Turbofan Engines
51. Housing factory SOLUTION - Using shipping Containers
52. City Architecture : Sectoral Architecture
53. Five Different Styles of Home Architecture [HIGH VALUE]
54. The Concept of Air Above / air above a city [Nevada , germany, Wyoming]
55. Farm to Fork service
56. Selling Metal the Creative Way [Shapes / structures] [HIGH VALUE]
57. Airline Travel : with goodies : Group buying
58. The Food Factory Project.
59. The Timed Drugs
60. Turbine Blade Coating and Valuation of Turbine based Power Plants.
61. Airline Administrators : ADMIN or each airline. [Airline control systems] [HIGH VALUE]
62. The information flow problem using [Repeated machines while transferring data] -
The satellite solution Direct to Laptop
63. Indian railways : A Case Study [Electricity Consumption]
64. Cold storage solutions: INDIA
65. Hard Earned Money vs Easy Earned money ?

Design Bureau Projects

1. Spatial Projections
2. super critical Lifeline: Marine/Air/Rail Secondary Navigation
3. STEX ADVANCED TECHNOLOGY SERVICES GRID [HIGH VALUE]
4. ENTERPRISE FLUC CORE [HIGH VALUE]
5. FCX Reality compilers
6. Freescaling High speed no file system based datastores
7. VIKM - Operating system technology
8. Intelligent VIRTUAL CPU
9. Quantum Ballistix Hrd drives.
10. Unified Computing hardware systems
11. GPS /Location fix using IRIDIUM
12. Hitech Fullfilment
13. Forum based information scaling
14. Community Mutual Funds
15. IC14 International Currency
16. QR CODE BASED TICKETING & Payments
17. HIGH Performance Banking networks
18. Electronic medical Records
19. Air/Marine/ Rail/Car/Bus: Telemetry control systems
20. Insured Loans Project
21. Insurance Tax Project [HIGH VALUE]
22. QUICK VISA + Vistor Tracking solution through the Phone GPS.
23. View Caching in databases for High speed Throws

Experimental Design & Engineering

1. SDSI Engines
2. GEAR Summation
3. DC Motors
4. Multi Axle [piped axles]
5. AX PUMPS [2 TYPES]
6. SMART COMPUTING STEX PAD: SIDE KEY BOARD
7. Aspheric lenses [image stitching]
8. stex Electrical plugs
9. STEX COLOUR CODES theory [machines,....]
10. Understanding Space Time
11. Electrical Engineering concept of Voltage Threshold and Maximum Current

Physics/Meta Physics

1. The Earth/Lazarrs Zarrs Story [Past Present Future]
2. Time Fracture
3. Time Evolution [Metals to Circuits]
4. Time relativity
5. Earth System Fitness test: Test for the 4th Dimension
6. STRATA FRACTURE
7. VISIONS OF THE COSMOS : Archosphere
